

Session L

Surface Water Interaction from Soil, Sediment and Groundwater

Chair: Marianne Olsen

Research Manager, Norwegian Institute for Water Research, Norway

Contaminant response in a multistress environment

Keynote Speaker Katrine Borgå

Professor, University of Oslo, Norway

Bodø Airport – The story of PFAS' way from soil, through storm water to biota

Marianne Kvennås

Head of Section, NGI, Norway

Using temperature to assess interaction between
contaminated groundwater and surface water

Gro Lilbaek

Ph.D., Hydrogeologist, NIRAS, Denmark
